Dear Mr. Nelson:

Thank you very much for dropping by our booth at Siggraph '81, in Dallas. It was a pleasure demonstrating to you, the FIRE-240.

The system's new and innovative design was very well received by the delegates, and a variety of other applications were also suggested.

I would like to keep in touch with you and relay any new developments that you have shown an interest in.

Kind regards,

MACDONALD, DETTWILER & ASSOCIATES LTD.
